DR DEEPAK KUMAR MASANI(OT)

OCCUPATIONAL THERAPIST

PROFILE

Dedicated and compassionate Occupational Therapist with(6month internship) of experience in rehabilitation, Pediatrics ,geriatrics, orthopedics, Mental health and neurology. Skilled in patient assessment, treatment planning, and therapeutic interventions to enhance functional independence and quality of life. Adept at collaborating with interdisciplinary teams and utilizing evidence-based practices for optimal patient outcomes. Passionate about patient education, adaptive techniques, and assistive technology.

PROJECTS

MULTILIFT OT SLING 34 -

Multilift OT Sling 34 is an assistive device designed for transferring patients with limited mobility between beds, chairs, or similar resting places using a hydraulic pump system. It's ideal for hospitals, nursing homes, and home healthcare settings. I developed this device under supervision to ensure safe and efficient patient mobility.
